Identical letters dated 10 November 2017 from the Permanent Representative of Israel to the United Nations addressed to the Secretary-General and the President of the Security Council

I am writing to inform you of Lebanese violations of Security Council resolution 1701 (2006), as well as breaches of Israeli sovereignty, during the months of July, August and September 2017. A comprehensive list of those violations is attached (see annexes I to III).

As outlined in the present letter, as well as in previous letters that I have sent, Lebanese violations of resolution 1701 (2006) are daily occurrences. Despite their visibility and frequency, the vast majority of the violations are consistently excluded from the reports of the Secretariat.

I trust that forthcoming reports of the Secretary-General on the implementation of resolution 1701 (2006) will reflect the ongoing violations and demand that the Lebanese Government abide by its commitment under the resolution.

I should be grateful if you would have the present letter and its annexes circulated as a document of the Security Council.

(*Signed*) Danny **Danon**
Ambassador

Identical letters dated 10 November 2017 from the Permanent Representative of Israel to the United Nations addressed to the Secretary-General and the President of the Security Council

I am writing to bring to your attention Syrian violations of the Agreement on Disengagement between Israeli and Syrian Forces, as well as breaches of Israeli sovereignty, during the months of July, August and September 2017. A comprehensive list of those violations and breaches is contained in the annex to the present letter.

As outlined below, Syrian violations of the Alpha line and armed presence in the area of separation are daily occurrences. Despite their clear visibility and the fact that the Israel Defense Forces regularly inform the United Nations Disengagement Observer Force (UNDOF) of those violations, such information is consistently excluded from reports of the Secretariat.

Israel is fully committed to the implementation of the Disengagement of Forces Agreement and the relevant Security Council resolutions, as demonstrated by the reports that the Israel Defense Forces continuously supply to UNDOF.

Syrian violations of the Disengagement of Forces Agreement serve only to enhance tensions in an already volatile region.

It is therefore imperative that the upcoming report of the Secretary-General on the activities of UNDOF accurately represent the situation on the ground and demand that the Syrian Government abide by the Disengagement of Forces Agreement of 1974.

I trust that the forthcoming report will reflect those ongoing violations, as well as Israel's commitment to the successful implementation of the Disengagement of Forces Agreement.

I should be grateful if you would have the present letter and its annex distributed as a document of the Security Council.

(*Signed*) Danny **Danon**

Letter dated 13 November 2017 from the Permanent Representative of the Democratic People's Republic of Korea to the United Nations addressed to the Secretary-General

I write to you with respect to the worst-ever situation prevailing in and around the Korean peninsula, which is making it impossible to predict when nuclear war breaks out due to the United States nuclear war equipment of unprecedentedly large scale being massively deployed and taking up a strike posture.

The United States, based on the deployment of three nuclear-powered aircraft carrier strike groups in the subregion, is holding another joint military exercise with south Korea involving different types of destroyers and submarines beginning from 11 November 2017.

Along with this move, the United States reactivated a round-the-clock emergency sortie system of nuclear-capable strategic bomber B-52 which existed during the cold war and is maintaining a surprise strike posture with frequent flights of B-1B and B-2 formations to the air space of south Korea.

The United States flung the words "total destruction" of a sovereign State at the General Assembly, the world's largest official forum of diplomacy, and is now running amok for war exercises by introducing nuclear war equipment in and around the Korean peninsula, thereby proving that the United States itself is the major offender in the escalation of tension and undermining of the peace.

The large-scale nuclear war exercises and blackmail, which the United States staged for a whole year without a break in collaboration with its followers to stifle our Republic, make one conclude that the option we have taken was the right one and we should go along the way to the last.

Despite this fact, the United Nations Security Council, whose mission is to ensure world peace and security, keeps turning a blind eye to the nuclear war exercises of the United States, which is hell-bent on bringing a catastrophic disaster to humanity, thereby giving rise to serious concern about the double standard of the Security Council.

In this regard, in view of world justice and impartiality, we kindly request that you give your viewpoints as to the following questions:

17-20113 (E) 151117

Please recycle

Question 1. Do the nuclear war exercises in and around the Korean peninsula being undertaken by the United States for a whole year without a break at all and targeting a sovereign State conform to the purpose of the Charter of the United Nations, which is to maintain peace and security?

Question 2. Since the Democratic People's Republic of Korea and the United States are legally in a state of armistice as belligerent parties as yet, does the questioning in the Security Council of the self-defensive measures of one belligerent party, the Democratic People's Republic of Korea, only as a "threat", ignoring the nuclear war provocative acts of the other belligerent party, the United States, conform to the principle of sovereign equality of the Charter?

We would like to politely request that you give right answers to the questions raised in conformity with the requirements of the Charter and the mission of the United Nations Secretariat, which holds impartiality and independence as its lifeline. At the same time, we politely ask you to bring to the attention of the Security Council under Article 99 of the Charter, regarding the danger being posed by the United States nuclear war exercises, which are clearly threats to international peace and security.

Furthermore, we should be grateful if you would have the present letter circulated as an official document of the seventy-second session of the General Assembly, under agenda item 65, and of the Security Council.

Letter dated 8 November 2017 from the Permanent Representative of Ukraine to the United Nations addressed to the Secretary-General

Annex to the letter dated 8 November 2017 from the Permanent Representative of Ukraine to the United Nations addressed to the Secretary-General

Comment of the Ministry of Foreign Affairs of Ukraine regarding a new wave of illegal searches and detentions in the temporarily occupied Crimea

The Ministry of Foreign Affairs of Ukraine expresses its resolute protest over yet another wave of illegal searches and detentions in the Autonomous Republic of Crimea, temporarily occupied by Russia.

On the morning of November 8, the Russian occupation authorities are reported to detain a local activist and photographer Seytumer Seytumerov, to conduct a number of illegal searches in the cities of Bakhchysaray, Staryy Krym and the villages of Zarichne and Kirovske.

A new wave of repression testifies to Kremlin's ongoing consistent and deliberate pressure on the members of the "Crimean Solidarity" association, composed of relatives of illegally detained Ukrainian citizens in Crimea, activists and lawyers.

The crackdown on the "Crimean Solidarity" is an attempt to intimidate those who help the families of illegally imprisoned Ukrainian citizens in the occupied Crimea and tell the truth about Kremlin's repressive policies on the peninsula despite the threats of the Russian occupation authorities.

Detentions of Timur Ibrahimov, Marlen Asanov, Memet Belyalov, Ernest Ametov, Server Zekiryayev and Seyran Saliyev in the city of Bakhchysaray on 11 October 2017 were the first wave of persecutions against the "Crimean Solidarity".

The Kremlin resorts to cynical methods to force activists and relatives of Ukrainian political prisoners to remain silent and to abandon initiatives of solidarity and mutual assistance.

There are no rights to freedom of speech and peaceful assembly in Crimea, temporarily occupied by Russia. Russian occupants realize their weakness and are afraid that the truth about Russia's crimes in Crimea, for which they will be definitely brought to justice, extends beyond the peninsula.

We demand that Russia halt the state of lawlessness in the temporarily occupied territory of Ukraine and ensure an unhindered access of international monitoring missions to the Crimean peninsula.

Ukraine calls on the international community to publicly condemn large-scale violations of human rights and fundamental freedoms in the temporarily Russia-occupied Crimea, to stand for the population of Crimea, which is suffering from the repressions of the Russian occupation authorities, and to strengthen pressure, in particular sanctions, against the aggressor state.
